This class synthesizes the Nine Spiritual Bodies of the Ancient Egyptians, the Qabala and the way in which the ancient healer/shaman understood all forms as vibration. Learn how each subtle body influences our lives from their functions in the physical, astral, mental and spiritual planes. By delving into inner and outer planes of existence, including the Akhet and Duat, Normandi parses out the difference between states of awareness. In exploring the nine bodies articulated in her book Dream of Isis, she shows how these bodies operate in thought, will, dreams, altered states, shamanic flight, spirit communication and higher states of consciousness. We will examine how the stories of a lifetime are inscribed by each spiritual body upon the akashic records of the soul. **NOTE: A lunch will be provided from noon to 1p.m.**
