The Good Luck Doctor Reveals the Science of Creating Miracles

*Dr. Stan's research revealed **new and vital information** about Miracles that he believes everyone needs to know to become a miracle worker and help save our planet.*

Dr. Stan Kendz dedicated his life to the investigation of the evolution of human consciousness. In 2005, he began his unprecedented scientific research into the underlying cause and creation of miracles. Meticulous analysis of his research data revealed the most profound understanding of miracles for the first time in modern scientific history. He received a PhD. for his consciousness-based research, an extremely valuable contribution to science.

Throughout the ages, from the sacred caves of the Himalayan Mountains to the Holy Lands of the Middle East, saints, sages, and spiritual leaders from every religion, continent, and culture have performed miracles.

Since prerecorded history, the ancient Vedic culture informs us of the attainment of super-human abilities known as Siddhi-Powers that enabled enlightened individuals to control the Laws of Nature. The Old and New Testaments of the Holy Bible inform us that among numerous other miracles, Noah, acting on the word of God, built a massive ark that saved complex life on earth. Moses parted the Red Sea to save the children of Jerusalem. Jesus healed the sick, raised the dead, and ascended. The Mayan and other indigenous civilizations of the Americas developed prophetic mathematical calendars and visionary methods for learning about the future.

Be among the first to learn:

- How every person can enjoy more miracles in their life
- The role prayer, meditation, and other mental techniques play in making spontaneous miracles happen
- The critically important contributions that feeling, experience, and appreciation make to the miracle creation process
- How to increase the timeliness, frequency, and meaningfulness of your personal miracles
- The essential role that experiencing effortless, spontaneous miracles play in our personal spiritual evolution as divine Beings
- The benefits that special ancient herbal mixtures originally formulated as Ambrosia or 'Food for the Gods' play in supporting the occurrence of miracles in one's life
- How to manage and command the Laws of Nature.

Dr. Stan will share many fascinating and personal examples of amazing miracles that happened to him. He will provide an overview of the scientific methods he employed to study the processes and mechanisms underlying the phenomenon of miracles, good-luck and good-fortune.

Each attendee will be gifted with a laminated, wallet-size Miracle Worker Reference Card.

One lucky attendee's name will be drawn to receive either a free Personal Consultation or an Aura Reading with Dr. Stan . A limited number of same-day Personal Aura Readings or Consultations will be available to other attendees for \$125 on a first come basis.
